

# Milky says lets play The Zoo Game

Get little mouths opening,  
brushing and laughing. This  
simple game makes brushing  
easier and more fun!

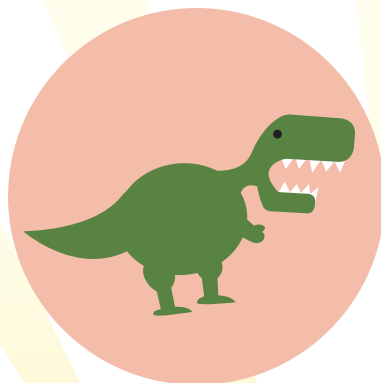

It also teaches  
your child about some  
amazing animals.

To get behind front teeth, tell your child to  
act like a hippopotamus: mouth opened  
wide and head tilted back.

To get to the  
chewing surfaces,  
tell your child to roar  
like a lion: mouth  
open as possible.

To brush the front of  
your child's teeth, tell  
your little one to growl  
like a tiger: showing  
you a great, big grin.
