

Your Child's Tooth Timetable

Find out what's happening in your child's mouth, and what to expect as they grow.

MILK TEETH
0-3 YEARS

0-6
months

Teeth grow in gums. Teething starts.

6-12
months

First milk tooth breaks through gums - usually a middle front tooth.

1-2½
years

Milk teeth continue to come through. Most children have a full set of 20 milk teeth by the time they are 3 years old

3-4
years

Big/adult teeth begin growing and getting ready to come through

LITTLE TEETH
4-6 YEARS

4-5
years

Big/adult teeth begin growing and getting ready to come through.

5-6
years

Big/adult teeth begin growing and getting ready to come through.

BIG TEETH
6+ YEARS

6+
years

Adult teeth come through. By the age of 13, most children have lost all their milk teeth and have a full set of permanent teeth.
