

Your Child's Tooth Timetable

Find out what's happening in your child's mouth, and what to expect as they grow.

BABY TEETH 0-3 YEARS

**0-6
months**

Teeth grow in gums. Teething starts.

**6-12
months**

First baby tooth breaks through gums - usually a middle front tooth.

**1-2½
years**

Baby teeth continue to come through. Most children have a full set of 20 baby teeth by the time they are 3 years old

LITTLE TEETH 2-6 YEARS

**2-6
years**

Big/adult teeth begin growing and getting ready to come through.

BIG TEETH 6+ YEARS

**6+
years**

Adult teeth come through. By the age of 13, most children have lost all their milk teeth and have a full set of permanent teeth.
